Brownley's NAVY YARD FORCE

Forced Weekly Holiday to **Prevent Discharge of** Employes.

Employes of the Washington navy yard will be given holidays every Saturday, beginning tomorrow, without pay The Navy Department yesterday issued orders for the closing of all navy yards and shore stations on Saturdays.

This step is being taken in an effort to prevent the government from throwing into the ranks of unemployed large numbers of mechanics, reckoned at 1,000 in the case of the local gun factory. In fact, officers at the local yard had been working on the list of those who must go, and they were to be discharged today, in the event that the Navy Department had not approved the five-day-aweek plan.

However, 130 employes were discharged from the local yard today. These discharges would have been necessary, it was pointed out, and are an addition to those which would have been made without the five-day plan.

This particular discharge marks a step in putting the local gun factory on a basis of high efficiency. Owing to the cut in appropriations and the consequent necessity of cutting down the number of working days to five, it will be necessary that every emitted.

the number of working days to five, it will be necessary that every employe be regular in his work, and that he maintain a high state of efficiency in order that the local gun factory may turn out the maximum of work to meet the demands of the big ships for guns and other equipment.

Saturday has been selected as the enforced holiday, though some protest had been voiced on the ground that during the summer most stations were permitted to give half of Saturday as a holiday, under normal conditions, without deduction of pay.

"The department hopes this order will be accepted in the spirit in which it is promulgated," Assistant Secretary of the Navy Roosevelt said, in a letter explaining the purpose of the action.

WILL SHOW NAVY FILM.

Thrills of Service to Be Exhibited

Unit on Cruise Tonight.

A moonlight excursion to Indian Head will be held by the Welfare League of the Income Tax Unit of the Treasury Department tonight. The commissioner and deputy commissioner and expected to be present.

In charge of the outing is a committee composed of: Edwin Smith, chairman; C. A. Jacquette, vice chairman; O. C. Luxford, B. A. Sheppard, J. T. Elsroad, A. P. Wyand, W. E. Shunk, W. H. Robinson, T. C. Cooper, W. G. Woodford, C. M. Sheppard, W. T. Peake, E. S. Strait, J. F. Hessenaur, D. F. Garrettson, A. S. Schuman, Miss V. L. Richards, E. A. Nelss, J. R. Little, A. E. Otto, C. M. Wood, T. L. on Screen.

Arrangements have just been completed for the initial public presentation in Washington of "Our Navy in Action," a film made at the express direction of the Secretary of the Navy.

The film is two full reels in length, and is deemed the most artistic bit of photography ever turned out by the Navy Department, as well as the most intensely interesting of all Navy pictures. "Our Navy in Action" brings to the screen all of the thrill, all of the hazard and all of the romance of hydroplane, submarine, submarine destroyer and battleship warfare.

The film will be shown in the Crandall theaters in the National Capital, the first presentation to be throughout the week beginning next Sunday at Crandall's Metropolitan. The film subsequently will be presented in the six other Crandall theaters in this city.

LESS TRAFFIC ACCIDENTS. Maj. Gessford Tells Police to Keep Up Vigilance.

Records of the traffic bureau of the police department for the current month show a decrease in traffic accidents, according to information contained in a bulletin issued by Maj. Harry L. Gessford, superintendent of police.

police.

Maj. Gessford directed members of the force to keep up the good work of enforcing the traffic regulations in order to prevent accidents, personal injury and possible loss of life and limb.

Members of the force were directed to keep close lookout for the speeder and corner-cutter and compel compliance with the regulation requiring machines to slow down at

intersections.

Special attention was called to the regulation giving the machine to the right the right of way at street intersections, and the police were directed to require strict compliance with the regulation.
